Connecting to Pulse Secure from iOS Devices

1. Open the App Store
2. Select ‘Search’
3. Type in ‘Pulse Secure’ and tap search

4. Tap ‘Get’ next to Pulse Secure
5. Tap ‘Open’

6. Tap ‘Allow’ to allow Pulse Secure to send/display notifications
7. For the server name enter: vpn.coeit.osu.edu and click ‘Submit’

8. All of the next fields are technically optional, but it is recommended to enter a ‘Connection Name’ at a minimum
9. You must click ‘Allow’ to let Pulse Secure add VPN configurations

"Pulse Secure” Would Like to Add VPN Configurations
All network activity on this iPhone may be filtered or monitored when using VPN.

Allow
Don’t Allow

10. Click ‘Connect’

11. Read the Pre-Sign in Notification and click ‘Proceed’ if you agree
12. Enter your name.# and your name.# password. Select CoE-Net for your realm. Then tap ‘Click here if you need to enter a second factor passcode’. Enter your preferred DUO method and tap ‘Sign In’.

13. Accept any DUO prompts as needed.

14. Congratulations you should now be connected!
